

AXEL CLASS

Are you in Group C? Are you ready to take the next step in learning your Axel?

Every skater remembers their first successful landing. The feeling of soaring through the air, turning, landing, and gliding away on a beautiful backward outside edge. It is a feeling that cannot be beat, and it is the first step in learning and achieving multi-revolution jump muscle memory and success on ice.

This is the ideal specialty class to serve as supplemental training to your private lessons and is offered in a fun and economic format. In this 45-minute class, skaters will have the opportunity to learn important foundational axel concepts. Skaters will learn the importance of the backspin as well as waltz/loop combinations and other practice exercises to create muscle memory for a correct and consistent axel.

Gloves and appropriate figure skating attire should be worn for this class. Butt pads are also highly recommended (though not required) for this class.

**Classes will be held on Saturdays:
10:45 – 11:30 AM**

October 17, 24, 31 AND November 7 and 14

The cost for this 5-week class is \$30.

Space is limited. Walk-ons will be accepted at \$15 per class if space is available.
